

Project: _____ Location: _____ Item #: _____ Quantity: _____

Standard Features

- Hermetically-sealed steam chamber heats toaster plate
- 9.6 kW [24"] total power, long-life low watt density heating elements mounted inside chamber and immersed in distilled water (water never needs replaced)
- Steam transfers heat evenly to entire cooking surface with only $\pm 5^{\circ}\text{F}$ ($\pm 3^{\circ}\text{C}$) in temperature variation
- Rapid surface temperature recovery allows turning product to same spot
- Stainless steel cooking surface speeds and simplifies cleaning
- Heating indicator light
- 200–400°F (93–204°C) digital thermostat
- Easy front service access to controls
- Control guard
- 3 preset temperatures capable
- Manager mode to lock out temperature controls
- Over temperature indicator light
- Cold-rolled and stainless steel toaster plate with polished stainless steel body
- 7 gauge toaster plate with 1" high rear splash and 1" side walls
- 3 $\frac{7}{8}$ " wide by $\frac{1}{2}$ " deep full front crumb trough
- 5' power cord and plug included
- 4" legs with bullet or flanged feet
- One year parts and labor warranty
- Lifetime Service & Support Guarantee

Options & Accessories

- 4" legs with bullet or flanged feet
- Stainless steel support stand with double shelf available with casters, bullet feet or flanged feet
- Weld beads

Safety, Sanitation & Environmental

- UL LISTED Safety Certification (UL 197)
- UL EPH Sanitation Certification (NSF 4)

Short Spec

AccuSteam toaster is *AccuTemp* Products' electric toaster featuring proprietary steam-heated technology. A hermetically sealed chamber generates steam beneath the cooking surface, delivering 100% usable cooking area with an operating temperature range of 200–400°F. The unique steam chamber design produces less radiant heat than any toaster on the market, helping keep kitchens cooler while reducing HVAC energy costs. This design eliminates hot and cold spots, providing near-instant recovery and temperature accuracy of $\pm 5^{\circ}\text{F}$. The toaster cooking surface is fabricated from 7-gauge cold-rolled stainless steel with a 1" backsplash, large capacity crumb trough and includes three preset temperatures, manager lockout mode and an over-temperature indicator light. Lifetime Service and Support Guarantee. Toaster is UL Safety and Sanitation certified, and ENERGY STAR® qualified. Made in the USA.

ETH AccuSteam bun and tortilla toaster shown with optional bullet feet

AccuSteam® Electric Toaster Specifications	
Model #	ETH2083A2450-T1
208/3 Amp Load	27A / 9.6 kW
Unit Width (A)	24.25 [616]
Unit Depth (D)	34.75 [883]
Cooking Surface Width (B)	23.88 [607]
Cooking Surface Depth (C)	30.19 [767]
Depth to Rear Leg (E)	8.44 [215]
Effective Cooking Area	721 ² [465,160 ²]
NEMA Plug (208/240)	15-50P

Clearances		
Location	Combustible Construction	Non-combustible Construction
Back Side	2"	0"
Right Side	1"	0"
Left Side	1"	0"

Suitable for all installation on combustible floors.

Notes:

1. Each toaster is equipped with a 5' power cord.
2. Toaster dimensions in chart are in inches and [millimeters].
3. Do not place directly onto any kind of heat source.
