Model:
GR135

Iceflaker - Cylindrical Auger
135kg production - 60kg storage bin

General Information

The GR135 produces up to 135kg of flaked ice per day and has an integrated 60kg storage bin for easy and quick installation.

The GR series is fully electromechanical for high reliability and easy maintenance.

A tropicalised condensing unit makes the GR series suitable for use in ambient temperatures of up to 43°C to cope in even the most demanding environments.

Key Features

- Heavy duty auger production system
- Fully electromechanical operation
- Adjustable moisture content
- Supplied complete with scoop
- Low power and water consumption
- Tropicalised condensing unit
- Can operate in ambient temperatures up to 43°C
- R452a refrigerant

Construction

- AISI304 stainless steel construction

Available Options

- Everpure 4H water filter

Technical Data

Model	GR135
Production / 24 hours	135kg
Storage bin	60kg
Ice shape	Flaked
Condenser type	Air
Evaporator	Cylindrical auger
External Dimensions	Width = 515 Depth = 550 Height = 1355
Interior Finish	Food safe plastic
Exterior Finish	AISI304 Stainless Steel
Power supply	230v 50hz
Power rating	640w
Refrigerant	R452a
