Model:
GR220

Iceflaker - Cylindrical Auger
 220kg production

General Information

The GR220 produces up to 220kg of flaked ice per day and is suitable for use with the S230 storage bin.

The GR series is fully electromechanical for high reliability and easy maintenance.

A tropicalised condensing unit makes the GR series suitable for use in ambient temperatures of up to 43°C to cope in even the most demanding environments.

Key Features

- Heavy duty auger production system
- Fully electromechanical operation
- Adjustable moisture content
- Supplied complete with scoop
- Low power and water consumption
- Tropicalised condensing unit
- Can operate in ambient temperatures up to 43°C
- R452a refrigerant

Construction

- AISI304 stainless steel construction

Available Options

- Everpure 4H water filter

Technical Data

Model	GR220
Production / 24 hours	220kg
Suggested storage bin	S230
Ice shape	Flaked
Condenser type	Air
Evaporator	Cylindrical auger
External Dimensions	Width = 515 Depth = 550 Height = 575
Interior Finish	Food safe plastic
Exterior Finish	AISI304 Stainless Steel
Power supply	230v 50hz
Power rating	780w
Refrigerant	R452a

Approvals	Available At	Document #
