Aluminum Stocking & Marking Cart

A welded aluminum stock cart designed for material handling and transport applications. Its open-base design, durable construction, and high load capacity make it suitable for commercial, institutional, and warehouse environments.

ALUC-2-2036-36H

Features:

- All welded aluminum construction
- Two shelf design with open base
- 20" x 42" shelf size
- Push handle for maneuverability
- 5" polyurethane casters with (2) swivel and (2) rigid configuration
- 1200 lb capacity
- NSF listed

Benefits:

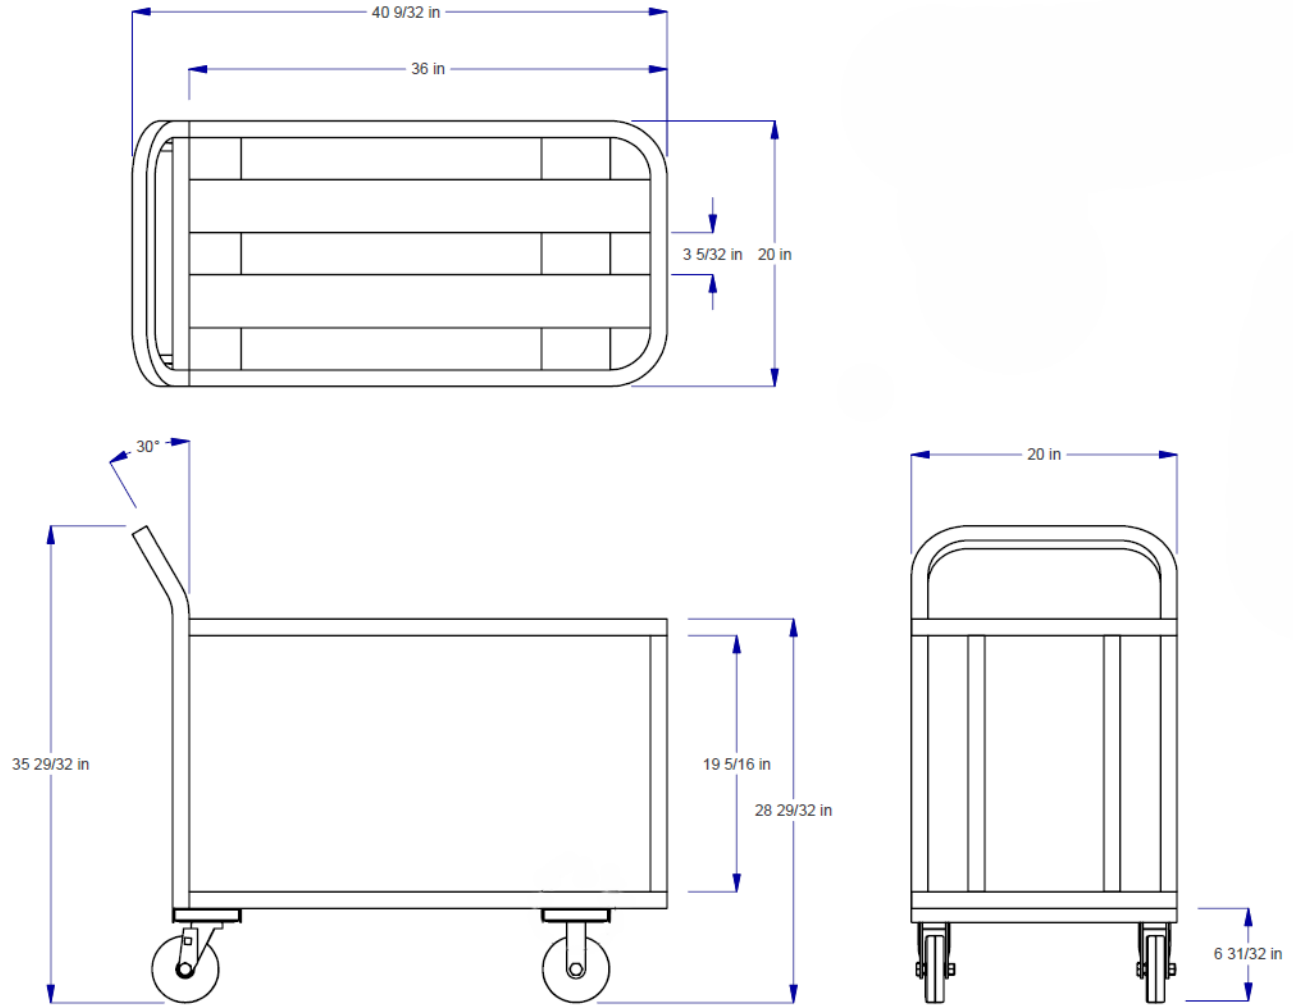

- Lightweight aluminum construction offers durability for daily use
- Two shelves provide organized transport and storage space
- Open-base design allows easy access to stored items
- Push handle supports comfortable cart movement
- Swivel and rigid caster combination helps balance maneuverability and directional control
- High weight capacity accommodates heavy loads
- NSF listing supports use in environments with sanitation requirements
