

TOPPING STATIONS DRY PRODUCT DISPENSERS

Model DPD

DPD 1-LITER SINGLE 86670 (LEFT)
DPD 2-LITER SINGLE 86680 (RIGHT)

BID DESCRIPTION

The Dry Product Dispenser is a hopper system that accurately portions powders and other dry products. The dispenser allows portions from ¼ to 2 ounces (7 to 60 mL) by volume and is adjustable in ⅛ ounce (3.4 mL) increments. Suggestions for use include smoothie powders, iced coffee powders, mix-ins for blended ice cream drinks and cocktail powders.

Dry Product Dispensers are designed to be mounted side by side for a station of several products. Choose from 1 or 2 liter capacity models with a single, double or triple wall bracket. A double stand is available, to convert your double 1 or 2 liter model for countertop use.

A guideline for product use would be as long as it is consistent and not much bigger than ½ inch (1.3 cm) in diameter. Dissimilar products and those that tend to melt or stick together at room temperature such as crushed candy bars are not recommended. Very fine protein or malt powders may bridge as the hopper empties. The addition of our Free Flow Accessory should solve bridging while the Stir Paddle Accessory addresses irregular pieces such as cookie crumbles.

TWO YEAR WARRANTY

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For a copy of our complete warranty statement, please refer to server-products.com.

STANDARD FEATURES

- Durable, clear polycarbonate hopper shows off product
