

# Imperial Electrical Booster Water Heaters

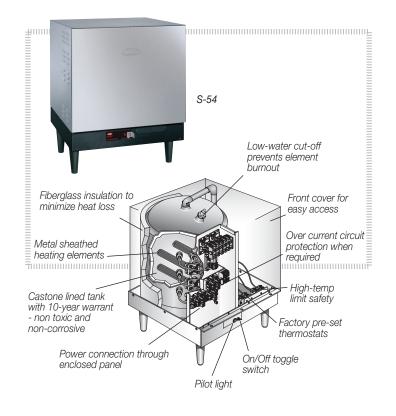

Models: S-6, -7, -9, -12, -13, -15, -17, -18, -24, -27, -30, -36, -39, -40, -45, -54, -57

The Hatco Imperial Electric Booster Water Heater combines quality construction and rugged dependability to provide up to 573 GPH (2169 LPH) of sanitizing rinse water. Dishes and flatware air-dry instantly to save time, space and money. Storage capacity is 16 gallons (60 liters). Thermostats can be lowered to a 140° F (60° C) setting for low-temp dishmachines, and service area is accessible from the front to permit easy installation, even next to other equipment.

# Standard features

- All models include a Castone<sup>®</sup> lined tank with a 10-year limited warranty
- Features include a temperature/pressure relief valve, a pressure reducing valve, two temperature/pressure gauges, a hightemperature limit control, pilot indicator light, On/Off switch and a low-water cut-off to prevent element burnout due to a low water condition
- Each booster has a built-in heat trap and fiberglass insulation to minimize heat loss
- Hatco Electric Booster Heaters are factory pre-plumbed and pre-wired with calibrated immersion thermostats and hightemperature limit switch
- A stainless steel front panel and powder-coated silver-gray hammertone body is standard on all Imperial models

Item #	
Quantity	

**Options** (available at time of purchase only)

- ☐ Stainless Seel Body and Base
- ☐ Security Package (Torx® screws and control cover)

## **Accessories**

- ☐ Blended Phosphate Injection System (not for potable water)
- ☐ Additional Stainless Steel Floor Mounting Leg Assembly
- ☐ Additional Brass Pressure Reducing Valve with Bypass
- ☐ Additional Stainless Steel Adjustable Legs 6" 7" (152 178 mm)
- ☐ Shock Absorber (reduces water hammer)
- ☐ Back Pressure Relief Valve

For operation, location and safety information, please refer to the Installation & Operating Manual.

# WATER QUALITY REQUIREMENTS

Incoming water in excess of 3.0 grains of hardness per gallon (GPG) (.75 grains of hardness per liter) must be treated and softened before being supplied to booster heater(s). Water containing over 3.0 GPG (.75 GPL) will decrease the efficiency and reduce the operating life of the unit.

Note: Product failure caused by liming or sediment buildup is not covered under warrantv.

## **PRODUCT SPECS Electric Booster Water Heaters**

The Electric Booster Water Heater shall be an Imperial Model manufactured for commercial use by the Hatco Corporation, Milwaukee, WI 53234 U.S.A.

The booster shall have the capacity to heat ... gph (lph) from ... °F to 180°F (... °C to 82°C) and it shall be rated at ... kW, ... volts, ... phase. The tank shall be designed for a working pressure of 150 psi (1034 kPa) and include a Hatco Castone® lining.

The heater shall be complete with all internal plumbing, including 3/4" NPT pipe and fittings for inlet and outlet. All controls shall be built-in, including contactors and prewired in accordance with UL #1453 and 422.11 NEL 2002. Proper surface mounting circuit breaker or fused disconnect switch shall be provided by electrical contractor.

Electric heating elements shall be metal sheathed, controlled by ambient compensating thermostats. The booster shall be protected with high temperature limit switch (ECO) and low-water cut-off.

The heater shall consist of stainless steel front and silver-gray hammertone body with standard 6" (152 mm) legs (or stainless steel body, base, and stainless steel adjustable legs).

The heater shall include a temperature/pressure relief valve, high-temperature pressure reducing valve with bypass, and two indicating temperature/pressure

Warranty consists of 24/7 parts and service assistance (US and Canada only).
