Model:
GR565

Iceflaker - Cylindrical Auger
565kg production

General Information

The GR565 produces up to 565kg of flaked ice per day and is suitable for use with the S390 storage bin.

The GR series is fully electromechanical for high reliability and easy maintenance.

A tropicalised condensing unit makes the GR series suitable for use in ambient temperatures of up to 43°C to cope in even the most demanding environments.

Key Features

Construction

Available Options

- Heavy duty auger production system
- Fully electromechanical operation
- Adjustable moisture content
- Supplied complete with scoop
- Low power and water consumption
- Tropicalised condensing unit
- Can operate in ambient temperatures up to 43°C
- R452a refrigerant

- AISI304 stainless steel construction

- Evapure 4H water filter

Technical Data

Model	GR565
Production / 24 hours	565kg
Suggested storage bin	S390
Ice shape	Flaked
Condenser type	Air
Evaporator	Cylindrical augar
External Dimensions	Width = 675 Depth = 550 Height = 800
Interior Finish	Food safe plastic
Exterior Finish	AISI304 Stainless Steel
Power supply	230v 50hz
Power rating	1850w
Refrigerant	R452a
