Chip Warmer

Enhance productivity and presentation by creating an area to hold, serve and display cooked chips. Heating from above and below, the Roband chip warmer maintains cooked chips at the correct serving temperature and allows the basket to be immediately returned to the fryer for the next batch. At the same time, the heat lamps serve to throw a yellow light onto the cooked chips to enhance presentation.

FEATURES

- Heat source from above and below
- Sloped tray for ease of serving
- Energy regulator control
- Stainless steel body
- Adjustable feet
