

Drinking Fountains

The AQUA 35

Providing an unlimited supply of cold, fresh water, the Roller Grill AQUA35 is particularly well suited for use in any self-service environment, canteens, restaurants, hospitals, schools, leisure parks, etc. Directly connected to the mains supply, the AQUA35 produces a constant supply of chilled water, between +8 / +10°C, with an output of up to 35 ltr per hour.

The AQUA 35 uses R290 Hydrocarbon refrigerant gas. The water circuit is hermetically sealed with no exposure to air thereby preventing the formation of bacteria.

Features a glass/cup filler and bubbler tap.

Supplied with triple action filter to prevent lime scale, chlorine and sediment build up

Weight	34kg
Dimensions (mm)	400 x 440 x 1250
Power	0.28 Kw
Power Connection	13amp plug
Output	35 L/h
Temperature Range	+8 / +10
