We are adding bouillon spoons and a demitasse spoon to six of our existing International Collection flatware patterns from World Tableware!

Bouillon spoons are designed for eating thin broths. These spoons with round shallow bowls and a shorter handle are the perfect addition to our current collections.

The demitasse spoon is dainty and delicate, smaller than a teaspoon, and is essential for the traditional practice of drinking coffee, cappuccino, tea and other hot drinks. Perfectly proportioned to the demitasse cup, but can also be used to eat dessert like custard or sorbet.
