

# Astoria Greta Coffee Machine

A small form factor coffee machine that is ideal for smaller coffee operations or businesses looking to introduce or offer espresso-based drinks on a small scale.

Despite its diminutive size, Astoria's pedigree as one of the foremost coffee machine manufacturers oozes from this attractive and robust little coffee machine.

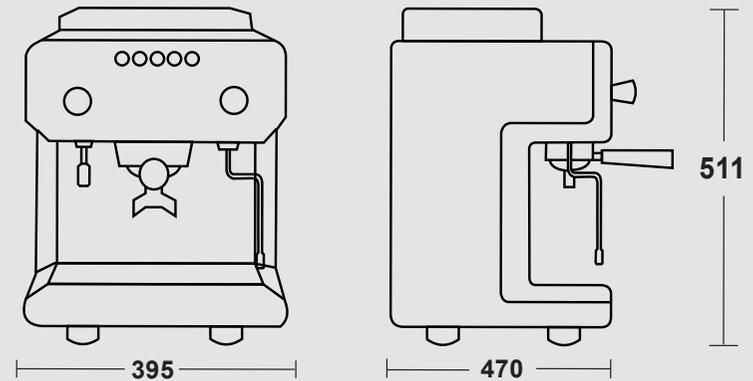

Simple push button operation, a hot water tap and powerful steam arm give you everything you need without having to worry about space requirements or the quality of your espresso.

## KEY FEATURES
