## Specifications

**Exterior:** Exterior body is constructed of 18-gauge stainless steel side panels and 14-gauge galvanized bottom. All exterior side panels are reinforced with overlapping corners and are welded in place. All insert cutouts are reinforced with 14-gauge galvanized channel supports.

Exterior top shall be one piece, 14-gauge stainless steel, welded, ground and polished into one integral unit. Top is fabricated with square exterior corners with fully hemmed nosing on all sides. Stainless steel fully retractable interlocks are installed on opposing corners and locks units into a complete serving system.

### SC-TRIOS only:

**Body Interior:** Open understorage to be lined with 18-gauge stainless steel. Open shelf is totally enclosed on all sides and can be accessed without removing the top.

**Casters:** Unit is mounted on 5" (12.7cm) diameter swivel polyurethane casters with non-marking tires and plate brakes. Casters are bolted directly to the 14-gauge bottom of the base. Overall height of caster assembly is 6.00" (15.2cm).

**Styling:** Units are standard with 18-gauge stainless steel exterior sides. Laminate is an option available at no additional charge. Decal packages and canopies are also available.
