

## SR-PGE54 PRO IH RICE COOKER

High-performance Pro IH rice cooker designed for professional kitchens. With powerful induction heating (IH) and alternating convection, it delivers perfectly cooked rice with rich flavor and ideal texture automatically. The LED control panel makes operation intuitive, even in low-light environments. Built for efficiency and consistency, it's the perfect solution for restaurants, catering services, and institutional kitchens.

Diamond Coated  
Non-Stick Inner Pot

5.4 litre  
capacity

Smart cooking, professional results

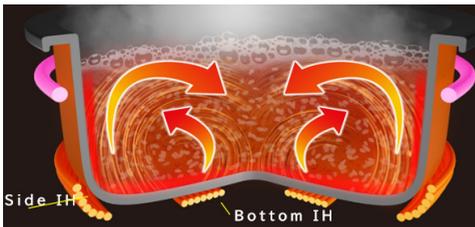

Technical Specifications	
Power Source	230-240 V
Power Supply	14.8 - 15.5 Amp
Plug Type	EU: Schuko 16 A / UK: CEE 16 A
Outer Dimensions (WxDxH)	502x429x390mm
Output Cooking Power	3550 - 3560 W
Net Weight	17 kg
Capacity	5.4 L (30 Cups)
Functions	Keep Warm Function - 8 hrs recommended OFF Mode Switch: Yes Quick Start For Shorter Cooking Times (e.g. White Rice: 30 Min)

## FEATURES

- 5.4 L Cooking Capacity (30 cups)
- Induction Heating with Alternating Convection
- LED Display Panel with Cooking Stage Indicators
- 3 Hardness Settings: Hard / Normal / Soft
- 6 Cooking Modes: White Rice, Rinse-free, Brown Rice, Sushi Rice, Mixed Rice, Porridge
- Manual Cooking Mode for Custom Adjustments
- Delay Timer for up to 24 hrs - recommended for up to 13 hrs
- Keep Warm Function - best no longer than 8 hrs (Available Temperatures: 71°C, 73°C, 75°C, 77°C)
- Diamond-coated Non-Stick Inner Pot
- Auto-soaking - evenly soaks rice to enhance Texture, Flavour And Fluffiness
- Upward-facing Control Panel for Better Visibility
- Adjustable Buzzer Volume & Pattern
- High Durability & Reliability for Commercial Use
- Quick Start (e.g. White Rice: 30 min)

## ALTERNATING IH CONVECTION HEATING

The two alternating IH coils generate inner and outer heat currents that make the rice move dynamically, resulting in uniform cooking, ensuring every grain of rice is evenly cooked, enhancing flavor and texture — as shown in the graphic on the right.

## DIAMOND-COATED NON-STICK INNER POT

It features a nonstick coating infused with diamond particles, boosting durability and heat conductivity for optimal cooking performance.
