Bartender stainless steel modules are designed to create a versatile underbar system. The modules are simple to design and install and can be easily reconfigured. Bartender modules offer great flexibility for any size or shape of bar and special units can be made on request. Bartender worktops are 304 brushed stainless steel and feature a unique raised front profile or “bull-nose” to reduce the risk of drips and spillage of liquids onto the serving area. BZ53/100 is an ice and bottle unit designed for the cold storage and service of cool beverages. It is supplied with removable dividers & drainage outlet.

ACCESSORIES:

BB02/208 leg frame to be added at the end of each Bartender “run”
 BB52/100 single speed rail
 BB69/100 double speed rail
 BB53/052 condiment set

OTHER:

Manufactured to ISO9001
