CONTOUR DIAMOND BOWL

Captivate guests and protect profits with innovative Contour pour control wine glasses. The geometric curve of the diamond-shaped bowl sends a subtle signal to servers, preventing excess pours and saving the operator thousands of dollars over time.

Complete your place setting with new Contour goblet and flute shapes. These non-pour control options share the same unique diamond bowl as the rest of the collection.

The wide bowl increases aeration, while a tapered rim captures aromas and prevents spillage. This collection is engineered to withstand banquets, events and hospitality settings - with enduring, elevated design that ultimately strengthens your bottom line.
