

# CHROME-PLATED STAMPED STEEL

TABLE BASES

CHROME-PLATED STAMPED STEEL

- Constructed of chrome-plated stamped steel for unparalleled strength & stability
  - Superior to cast iron table bases in that stamped steel will not fracture under heavier weights
- Easy three-piece assembly (spider to tube to base)
  - Oak Street uses a short bolt to screw into a welded anchor plate - a much improved method than competitors, which use a long rod that will torque & stretch when force is applied - making it permanently loose
- Spider dimensions: 11" x 11" - 15" diagonally
  - Oak Street's spiders are bigger than most competitor's spiders - providing additional strength & durability
- Standard height finishes at 30" with table top attached | Bar height finishes at 42" with table top attached
- **Save 50% on self-leveling glides when purchased with base!**
- For indoor use only
