Electric bratt pan 800

Manufacturer: Locher Großküchen-Geräte GmbH

Model: 207473

Alu-block-storage technology

- Excellent temperature storage
- Even heat distribution
- Rapid energy release

Description:

Electric bratt pan 800 with 2 heating zones

A special steel cooking surface with hard-plated stainless steel finish and an inside pan height of 80 mm.

Material: 18/10 stainless steel DIN 1.4301

The frame is jointlessly from with the top of the plate welded (hygiene!) means that no grease inlet down is possible.

With 10 mm lip right and left hand sides for the connecting rod and 20 mm lip at back.

The switches, inspection cover, rear panel and floor cover in the substructure are removable.

The base unit is closed on 3 sides and open at the front.

Which can be installed on a pedestal once height-adjustable feet have been removed.

The frying area is made by a special steel cooking surface of hard-plated stainless steel finish with rounded corners R12. This special surface has a thickness of 3 mm stainless steel and with a special grinding surface pattern for a good non-stick effect and roasting results. The bratt pan has an inside pan height of 80 mm include with a round drain hole (Ø55 mm) with Teflon plug and drip container GN 1/1-150 mm in the base unit. Aluminium block contact heating elements ensures a high heat storage capacity and even heat distribution.

The simple operation is carried out by a fully adjustable thermostat-controlled temperature of each heating zone with operating and heating display.

Included in delivery: Teflon plug, collecting container GN 1/1-150, reversible spatula, stainless steel scouring pad and 1,5 m cable

Optional:

- Clamping bridge
- door(s) for base (angle left o. right)
- Splash guard
- Preparation for energy optimisation (electric oven only)

Technical data

Width:	800 mm
Depth:	700 mm
Height:	850/900 mm
Height of lower compartment:	700 mm
Frying surface:	740 x 540 mm
Temperature range:	60° - 300°C
Total el. conn.:	400V / 3ph / 10,5 kW
