- Voltage: 230 V
- Speed: 1300 RPM
- Power: 270W

# Cunill Tranquilo Doser

## Doser Grinder

They say that you should never judge a book by its cover and that phrase applies here. Despite its relatively compact size, a heavy duty motor, condenser and hardy burrs all combine to produce grinds of an exceptional consistency.

- Adjustable 5 - 10 gram doser
- Bean hopper capacity: 0.5 kg
- 60mm flat burrs
- High performance motor with thermal protection
- Dimensions: W170 x D340 x H410
- Weight: 6 kg
- Voltage: 230 V
- Speed: 1300 RPM
- Power: 270W

# Mazzer Super Jolly SJM Doser

## Doser Grinder

The Mazzer Super Jolly SJM is designed for the coffee shop who needs the coffee pre-ground waiting to dispense. One pull of the dosing lever dispenses a single shot of ground coffee ready to use. Manufactured to Mazzer's exacting standards the SJM looks smart while being robust enough for any coffee shop.

- Adjustable 5.5 - 8 gram doser
- Bean hopper capacity: 1.2 kg
- 64mm flat burr
- Stepless micrometrical grinding adjustment
- Dimensions: W240 x D420 x H610
- Weight: 14 kg
- Voltage: 230 V
- Speed: 1400 RPM
- Power: 350W

# Nuova Simonelli MDX On Demand

## On Demand Grinder

A professional, on-demand coffee grinder featuring an LCD display screen, micrometric grinding, an easy to use intuitive control panel and a durable die-cast aluminium body. Single and double shot buttons plus a hands free filter rest are great features for the multi-tasking Barista. The MDX also has an innovative clump crusher, which helps separate the grind, removing any large clusters of coffee that may otherwise get trapped in the outlet.

- On demand grinding
- Bean hopper capacity: 1.2 kg
- 65mm flat burr
- Stepless adjustment
- LCD Display / Easy programming
- Single and double shot buttons
- Hands free filter rest
- Clump crusher function
- Dimensions: W190 x D360 x H590
- Weight: 10.5 kg
- Voltage: 230 V
- Power: 250W
