Gas Griddle

Model: KGRDG-2513

Hatco®/Krampouz Gas Griddle is designed for commercial kitchens with maximum durability and performance with minimum maintenance. Cook a wide variety of food product in a small footprint. It is easy to use, thanks to its adjustable thermostat and battery powered electronic ignition button. This griddle is perfect for narrow kitchens, confined spaces and outdoor use.

Standard features

- The Gas Griddle features a natural gas hook-up with 3/8 NPT. Also includes orifices for propane conversion.
- Two cooking zones with individual adjustable Temperature Control enables operators to cook food product with different temperature requirements on the same griddle surface
- Two U-shaped burners provide exceptional heat distribution, for even and fast cooking
- Two thermostats with a temperature range up to 572°F (300°C)
- The gas griddle is equipped with a heat-activated safety thermocouple that will cut off gas supply to the unit if the burner flame goes out accidentally
- The cooking surface is 25.43"W x 13.94"D (646 x 354 mm)
- The Gas Griddle consists of an easy-to-clean, stainless steel frame and a rectangular, stainless steel griddle
- Three anti-spill edges and an integrated and removable drip tray on the front for easy cleaning
- Ships with: legs (back legs are adjustable for leveling the unit), drip tray, propane conversion components, pressure regulator and gas shut-off valve

**For operation, location and safety information,
please refer to the Installation & Operating Manual.**
