

Key Features:

- 6 ounce Kettle - 127 quarts per hour
- 3-year manufacturer parts warranty
- Easy to use and maintain
- Heated warming deck
- Old-maid drawer for un-popped kernels
- Stainless Steel food-zone for easy cleaning
- 20 mil anodized non-stick Kettle
- Tempered glass panels

From the boardwalks of Coney Island and Palisades Park these antique styled popcorn machines will remind you of an era when vendors sold popcorn on street corners all across America. Sure to create a fun and friendly atmosphere in any location, these commercial quality machines are available as a counter-top model or with the matching trolley. All of the Street Vendor poppers feature stainless steel food-zones, 20 mil anodized Kettles (for easy cleaning), heated warming decks, old-maid drawers (for un-popped kernels), tempered glass panels and an industry longest three year parts warranty.

Features

Thick Gauge Kettle

These Kettle inners are constructed of thick gauge anodized aluminum for maximum performance and easy cleaning. Aluminum provides the best heat transfer of any "cookware approved" alloy while the 20 mil thick anodizing armors the Kettle for durability and provides a super-slick surface for easy cleaning. The Kettle jackets are made from stainless steel for corrosion resistance and easy cleaning.

Heated Warming Deck
