Z14 Nature Self Service

Endless possibilities for your business

Z14 is the right equipment for those businesses registering a high juice consumption. Additional autonomy can be obtained thanks to its large basket and waste bins. This is a key aspect for buffets, restaurants and the retail sector.

Efficiently squeeze juice

1. EVS®Advanced

Unique vertical juice extraction system; a Zummo exclusive. Based on manual juice extraction system it achieves maximum profitability, obtaining the purest possible juice with the greatest operational functionality.

2. Juice extraction kits

The different-sized juice extraction kits help to maximise the yield of the juice extracted from the fruit depending on its diameter. Easily identifiable thanks to the characteristic colour of each range:

Medium (M): Orange; Large(L): Maroon.

A system developed by Zummo to assemble and disassemble the balls of the kit in just one movement.

Juice extraction kits

3. Automatic filter

Comprised of a belt that starts to move when the juice extraction starts up, sweeping away the seeds and pulp that remain in the filter: greater juice extraction performance and greater autonomy.

Automatic filter

4. Basket available in two sizes

The machine includes a 20 lbs capacity basket as standard equipment. In those cases when an increase in the juicer's autonomy is required, there is an optional basket with load capacity of up to 35 lbs of fruit.

Basket in two sizes
