

Applications

Ergonomically organise ingredients to suit the menu and the operation:

- Meat
- Fish
- Vegetables
- Salad
- Kosher
- Halal

Operational Benefits

- Large plan area view
- Ease of access to all ingredients
- Ingredient organisation
- Food safety regulation compliant
- Safe separation to avoid cross-contamination of foodstuffs
- Quick and easy to clean
- One GN Pan Rack fills half a drawer, creating flexibility to store additional products and ingredients

It's an Adande®; it works like no other fridge or freezer...

DRAWER MANAGEMENT SYSTEMS

GN Pan Racks

Gastronorm (GN) Pan Racks help chefs arrange and store ingredients to suit operational and menu requirements.

One GN Pan Rack (RG) caters for half the drawer - adequate for most organisational needs, leaving space in the other side of the drawer to store additional items.

Gastronorm Pans are not included with orders for GN Pan Racks, but on request, stainless steel, polycarbonate or polypropylene GN Pans can be supplied - Price on Application.

Gastronorm Pan Storage

The Adande® Drawer caters for all depths of GN Pan from 200 mm down to 65 mm. When storing a variety of foods in smaller GN Pans, it makes sense to hold back-up stock of each item in the same size pan, stacked one on top of the other. This works equally well, be it 2 pans 100 mm deep or, as in the main photo above, 3 x 65 mm deep pans (1/1 size) in a stack, filling half the area of the bin.

At only 83 litres capacity, the Adande® Drawer holds a deceptively large volume because, unlike conventional cabinets, there is no requirement to leave air gaps between the items of food.

Drawer Dividers

Drawer Dividers (DD) simply slot into the grooves in the plastic insulated drawer bin, and can be moved easily to compartmentalise the drawer for more efficient use.

Drawer Dividers can be supplied with new drawer units or ordered separately at a later date.

Drawer Bins

Spare or replacement insulated plastic Drawer Bins (DT) are available, on request.

With internal dimensions of 700w x 540d x 220h mm the Adande® Drawer is designed to hold a wide variety of GN Pan combinations - see GN Storage info on this page.

Code	Type
RG	GN PAN RACK - HALF DRAWER
DD	DRAWER DIVIDER
B1	WIRE BASKET - HALF DEPTH, HALF AREA
B2	WIRE BASKET - FULL DEPTH, HALF AREA
DT	INSULATED DRAWER BIN
DL	DRAWER LOCK
N/A	STAINLESS STEEL & POLYCARBONATE GN PANS AVAILABLE

Drawer Locks

Drawer Locks (DL) can be fitted to any drawer unit in the Adande® range.

Drawer Locks must be requested at time of order, as they cannot be retro-fitted at a later date.

Wire Baskets

Wire Baskets (B1 & B2) are yet another way to help organise chilled and frozen bulk storage.

Each basket fits half the plan area of the drawer, with Full Depth (B2 - 200 mm deep) and Half Depth (B1 - 100 mm deep) baskets being available.

Bin Hygiene

With the drawer fully open (pulls out 700 mm) the insulated plastic Drawer Bin can be lifted out for cleaning.

Bins may be cleaned using ware wash equipment, so long as the water temperature does not exceed 85°C.
