

BIM40

INTEGRAL STAINLESS STEEL ICE MACHINE

Description

With its sleek matte black and stainless steel construction the BIM ice maker range is sure to be the focal point of any bar or restaurant. Producing squared ice that conforms to low UK water regulations it couldn't be any easier to get up and running with the integrated digital control panel and removable condenser filter.

During its 10-20 minute ice cycles you can ensure you will never waste a drop of water with automatic cut off levels and easy viewing thanks to the internal LED lighting.
