

Overview

A modular commercial kitchen storage system maximises the use of limited space. Stainless Steel cupboards with a strong and hard wearing design provide a hygienic surface for multi-purpose use. Perfect for kitchens with a small footprint. Floor standing stainless steel cupboards and drawer units with design features such as cut-outs to accommodate piping allowing easy installation.

The Multiplex range is based on modules of 400mm width and is designed around Gastronorm pans. The various units can be used individually or placed together to form a continuous preparation / storage layout of your choice. The robust stainless-steel construction feature adjustable for height feet and full length bottom kick trim. Cabinets doors are fitted with recessed handles and soft closing hinges. Each cabinet has one adjustable mid shelf fitted or six sets of adjustable runners to accept Gastronorm pans. Additional shelves are available at extra cost.

The worktops of the units are made special in one continuous piece (up to 2400mm in length). Multiple tops can be supplied ready to be joined using Moffat's unique quick seal joining system.

Drawer units have three or four fully extendible drawers, complete with lift out Gastronorm pans 100mm or 200mm deep.

Sample of a corner layout
