Griddle

Model: KGRDE-2513

Hatco®/Krampouz Electric Griddle is designed for commercial kitchens with maximum durability and performance with minimum maintenance. Cook a wide variety of food product in a small footprint. And easy to use, thanks to its adjustable thermostat up to 570°F (300°C). These griddles are perfect for narrow kitchens and confined spaces.

Standard features

- The exclusive, high wattage heating elements provide exceptional heat distribution over the entire griddle for even and fast cooking
- Two cooking areas for variety and speed in your kitchen, with individual adjustable Temperature Control, a Power I/O (on/off) Switch, and a heating indicator
- Two thermostats with a graduated dial from 120° - 570°F (50° - 300°C) which enable operators to cook food product with different temperature requirements on the same griddle surface
- The Electric Griddle consists of an easy-to-clean, stainless steel frame and a rectangular, stainless steel griddle
- Removable drip tray for easy cleaning
- The Electric Griddle features high wattage heating elements, and a factory attached 6' (1829 mm) power cord with plug
