Model:  
GR390

Iceflaker - Cylindrical Augar  
390kg production

### General Information

The GR390 produces up to 390kg of flaked ice per day and is suitable for use with the S340 storage bin.

The GR series is fully electromechanical for high reliability and easy maintenance.

A tropicalised condensing unit makes the GR series suitable for use in ambient temperatures of up to 43°C to cope in even the most demanding environments.

### Key Features

### Construction

### Available Options

- Heavy duty auger production system
- Fully electromechanical operation
- Adjustable moisture content
- Supplied complete with scoop
- Low power and water consumption
- Tropicalised condensing unit
- Can operate in ambient temperatures up to 43°C
- R452a refrigerant

- AISI304 stainless steel construction

- Evapure 4H water filter

## Technical Data

Model	GR390
Production / 24 hours	390kg
Suggested storage bin	S340
Ice shape	Flaked
Condenser type	Air
Evaporator	Cylindrical augar
External Dimensions	Width = 675 Depth = 550 Height = 660
Interior Finish	Food safe plastic
Exterior Finish	AISI304 Stainless Steel
Power supply	230v 50hz
Power rating	1300w
Refrigerant	R452a
