

# HOSHIZAKI

## CUBELET ICE MAKER, SELF CONTAINED CM-50KE-HC

Product series: FM

Item number: F161-C103

This Hoshizaki CM-50KE-HC is a self contained cubelet ice maker producing up to 55 kg of high-quality cubelet ice per 24 hours.

Hoshizaki CM ice makers produce cubelet ice. In cocktails, the dry and hard ice cubelets are the ideal cooling agent, as they deliver just the right amount of dilution, especially for strong spirited drinks, for example, Mojitos and Tiki Cocktails. The ice maker's extruding head performs a high compression to yield harder and drier cubelets, combining the characteristics of nugget and cube ice.

### Sustainable

The CM-50KE-HC uses refrigerant R290. This natural refrigerant is not only climate-friendly, but also boosts the machine, when it comes to performance and production capacity.

### Material

The exterior is made of stainless steel and the closed water circuit provides maximum protection against any type of contamination during the entire ice production process. All Hoshizaki machines are easy to use, clean and maintain.

### Unique Technology

The FM series has a worktime-based replacement system, which can be monitored with an intuitive control display for preventive maintenance. Hoshizaki was the first to introduce an automated water circuit rinse cycle, to avoid harmful mineral residues from clogging the hydraulic system and maintaining top sanitary conditions.

Smart Design  
Like all Hoshizaki Ice makers, the CM-50KE-HC is designed to last and comes with smart design extras. The Cubelet ice maker, Self Contained uses carbon graphite bushings instead of conventional ball bearings allows the machine to work entirely without grease. Here, the absence of moving parts prevents wear and tear, while the water-lubricated bearings protect the system from unpleasant calcification and bacterial contamination.

### Perfect Fit

With outside dimensions W x D x H of 498 x 570 x 697 mm, the CM-50KE-HC is compact and makes a perfect fit for small spaces.

### Plug&Play

The smart plug-and-play design guarantees an easy and quick set-up.

## SPECIFICATIONS

<b>Product title</b>	Cubelet ice maker, Self Contained
<b>Production capacity (kg/24h) approx.</b>	55
<b>Storage bin capacity (kg) approx.</b>	18
<b>Electric connection</b>	1/220 - 240V/50Hz
<b>Electric consumption (kW)</b>	0.27
<b>Outside dimensions W x D x H (mm)</b>	498 x 570 x 697

<b>Ice type</b>	Cubelet
<b>Refrigerant</b>	R290
<b>Cooling system</b>	Air Cooled
<b>Product configuration</b>	Self Contained
<b>Net weight (kg)</b>	49
<b>Gross Weight Packed (kg)</b>	58
