

Accessories: Stacking kit for 2 x B2MJ061E Minijet ovens

Ref. B1ACM61KS

**STACKING KIT**

- * Totally stainless construction.
- * This system reduces the floor space required by stacking 2 B2MJ061E Minijet ovens on top of each other.
- * The kit comprises:
 - two supports, right and left, to be fixed on top of the lower oven
 - a front fascia plate to be fitted to the lower oven and located under the channel of the upper oven
 - a stand with 4 adjustable feet and a shelf to hold cleaning chemicals.
 - a connecting box for the two outlet vents....
- * The upper oven is located on the two side supports allowing the feet to locate in the spaces provided in the supports, thus ensuring the stability of the unit
 - * Fix the oven onto the stands using 4 x M6 x 50 bolts (threaded inserts below the oven).
 - * Flanges are provided for floor fixing.
