

Client calling system

TEN **WIRELESS RECHARGEABLE DISCS**, WHICH LIGHT UP, VIBRATE AND BEEP **TO NOTIFY THE CUSTOMER** THAT THEIR ORDER IS READY. AVOIDING QUEUES AND GATHERINGS.

HOW DOES IT WORK?

1. Handover the disc to the customer, who will return back to his table or at a safe distance.
2. Once the customers order is ready the disc will light up, vibrate and beep.
3. The customer returns the disc and they are given their order.
