Height: 850mm to worktop					
					
M.E.P REQUIREMENTS:				SPECIFICATION	
PLUMBING :				Bartender stainless steel modules are designed to create a versatile underbar system. The modules are simple to design and install and can be easily reconfigured. Bartender modules offer great flexibility for any size or shape of bar and special units can be made on request. Bartender worktops are 304 brushed stainless steel and feature a unique raised front profile or “bull-nose” to reduce the risk of drips and spillage of liquids onto the serving area. BZ69/080BF is a beverage service unit with glass storage; the perforated worktop is ideal for busy bars where there is a lot of liquid spillage. BZ69/080BF has a reinforced top to allow the installation of beer fonts directly to the unit and is supplied with drain trays and 1¼ inch waste pipe outlet.	
Cold	Ø		mm		
Hot	Ø		mm		
Waste	Ø	31.75	mm
