

Astoria Sabrina (Tall Cup)

Taking inspiration from the swinging sixties and featuring modern-day technologies, the Astoria Sabrina delivers exceptional results in a futuristic package.

A backlit and customisable six-dose touchpad offers baristas complete control over their work, helping them to deliver excellent espressos every time.

The Touchscreen model (pictured) features an intuitive touchscreen which relays important information back to the operator.

2gr touchscreen in black

3gr standard version in brown

2gr rear view in brown
