Model:
GR1125

Iceflaker - Cylindrical Auger
 1125kg production

General Information

The GR1125 produces up to 1125kg of flaked ice per day and is suitable for use with the SDC830 ice transport system.

The GR series is fully electromechanical for high reliability and easy maintenance.

A tropicalised condensing unit makes the GR series suitable for use in ambient temperatures of up to 43°C to cope in even the most demanding environments.

Key Features

Construction

Available Options

- Heavy duty auger production system
- Fully electromechanical operation
- Adjustable moisture content
- Supplied complete with scoop
- Low power and water consumption
- Tropicalised condensing unit
- Can operate in ambient temperatures up to 43°C
- R452a refrigerant

- AISI304 stainless steel construction

- Evapure 4H water filter

Technical Data

Model	GR1125
Production / 24 hours	1125kg
Suggested storage bin	S675
Ice shape	Flaked
Condenser type	Air
Evaporator	Cylindrical augar
External Dimensions	Width = 1335 Depth = 610 Height = 815
Interior Finish	Food safe plastic
Exterior Finish	AISI304 Stainless Steel
Power supply	400v 50hz 3 Phase
Power rating	3700w
Refrigerant	R452a
