	Optional three phase, 30 AMPS
Opening required for installation: 30"	* Handle adds 2.5"(6.4cm) to depth

Digital Electronic Controller

Adjustable Legs

Durable Construction

The CE131PE is built with ***prime 20-gauge cold-rolled sides*** and toped with a 16-gauge base. The ***interior is made of Armco Type 1, 20-gauge aluminized steel.*** Also, the CE131PE comes standard with a stainless steel front using high quality 18-gauge stainless steel.

Energy Efficiency

The CE131PE is equipped with four (4) ***energy saving tubular elements*** and with our unique baffle system, makes the oven highly efficient and eliminates hot spots. The ***heavily insulated walls*** coupled with a no vent system, reduces heat loss and keeps the area safe for workers. The CE131PE is well powered by 7000 watts, which enables it to have an extremely fast recovery rate.

Versatility

The CE131PE comes with three (3) shelves and adequate spacing, which increases the oven's capabilities for either baking or roasting. This counter top unit is also double stackable for double the capacity, double the efficiency and double the profits. The CE131PE comes with an optional floor base (SPK31) for extra storage.

Space Saver

Because the controls are under the door, the CE131PE requires ***less installation space*** than our competition. This enables you to free up valuable kitchen and/or hood space. The actual width needed is mere 30" for ***three (3) cordierite decks*** which offers 456 square inches (2941.9 sq cm) of cooking area per shelf. That equals ***1368 total square inches (8825.9 sq cm) per oven.*** The CE131PE ***can convert into a CE231PE by stacking*,*** either initially or after your business grows. Note: The new oven must be the upper oven, and a SC model. This option gives you six shelves, which brings you total cooking area to 2736 square inches (17,651.4 sq cm) and becomes an SC series oven. **(*will increase width)**

SPK31 STAND
- Sideliners hold racks or stones
- Optional casters (shown)
- Optional racks (3) (shown)
- 30" (76.2cm) x 22.625" (57.5cm) x 26.25" (66.5cm)

Design Plus CE131PE

The CE131PE has a digital controller in the lower front for ease of operation, to save space and in their very own air conditioned area so they are not affected by outside influences. The CE131PE is totally thermocoupled and allows you to replace individual parts without replacing the entire system. The CE131PE is also available in a two shelf version if interior space is an issue.
