

E9460 Electric Chargrill

Short Form Specification

Unit to be Falcon F900 Series high performance electric chargrill. Unit to be supplied upon adjustable feet or installed upon open stand. Unit will be fitted with removable stainless steel splashguard to the rear and sides.

Food will be placed directly upon the elements. The elements will tilt up to provide easy access for cleaning.

The hob will be constructed from 2mm 304 grade stainless steel. Hobs will be laser cut with right-angled edges to allow joining of units with no gaps between hobs. Exterior panels are Scotch Brite finish stainless steel. Control knobs to be marked showing gas positions and to have a bezel behind each knob to prevent water ingress.

Key Features

- Food is cooked directly upon the element
- Extended cooking area
- Pressed grease collection tray at hob front
- Removable stainless steel surround
- Temperature range from 70 - 400°C
- Large capacity grease collection container
- Supplied upon stainless steel adjustable feet
