## 350XL SERIES ELECTRIC SLICER

The new 350XL Series of slicers are designed to handle larger items and more of them.

The opening, blade assembly, and pusher are 1 1/2" larger which makes them perfect for slicing cooked chicken breasts for fajitas, caesar salads, or larger beefsteak tomatoes. The new pusher design allows operators to adjust the start cycle for product thickness, while maintaining complete safety.

**Comes complete with two blade assemblies and two wash guards which eliminate down time.**

Model Number	Description	Product Code	Case Cube Ft <sup>3</sup> /M <sup>3</sup>	Master Case	Case Weight lbs./kgs
