

# The No.1 Solution to Wobbly Tables

The Comparison? There isn't any.

## FLAT®

- Instant stabilization (SMART SYSTEM)
- Unique capability of levelling and alignment of tabletops
- Worldwide patented technology

## FLAT® Technology, a Firm Footing for Nearly Everything

FLAT® is a multi award winning levelling and stabilizing technology. Delivering functionality and **cost savings** never seen before in the hospitality industry.

FLAT® is **always on**, our table bases remain **stable** no matter where they are placed. **Automatically** they adjust to the surface below then **lock** firmly into position no matter how many times the tables are moved.

FLAT® also delivers a “**World's First**” with its unique ability to allow the user to **align** multiple tabletops together, **eliminating** the troublesome ridge **forever!**

FLAT® technology comprises two elements, the PAD (Patented Actuator Device) and the PUK (Patented Undercarriage Key) for a seamless engineered solution.

| Feature                | Benefit                                                                                                                                                                                                          |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| INSTANT STABILIZATION  | Stabilizes the table in a fraction of a second, automatically.                                                                                                                                                   |
| LEVELLING & ADJUSTMENT | Unique FLAT® technology means that, for the first time ever, the alignment of the tabletop can be adjusted to suit different surfaces, simply by lifting the table.                                              |
| FLAT® SMART SYSTEM     | It's always 'on', constantly aware of the surface below and adapting instantly to changes.                                                                                                                       |
| DESIGN INTEGRATION     | The table base and technology form a seamless partnership. They have been designed and manufactured for simple integration into table production.                                                                |
| ENGINEERED DURABILITY  | FLAT is made with high quality polymers and has undergone extensive R&D and exhaustive testing. The result: an exceptional quality product that you can depend on.                                               |
| '4 x 4'                | Outperforms traditional (usually mechanical) methods of stabilizing tables. It's capable of adapting to a far greater variety of surface inconsistencies and delivers superior stability – whatever the terrain. |

## AUTO-ADJUST KT22

(This product includes 2 x bases)

### Rod

Thicker structural tension rod to hold base together securely.

### Top Plate

Superior quality 3-pronged top plate. Ideal for creating maximum space underneath the table top and complying with Disability regulation (i.e. ADA Compliance).

### Post (3in/76mm)

Wider diameter for structural support. Increased wall thickness.

### Cast Iron Base

High quality casting.

### FLAT® Technology Seamlessly Installed

The base and the technology are designed in unison to deliver superior performance and longevity.

PAD

|                                   |                               |
|-----------------------------------|-------------------------------|
