

Cabinet Stand 700

Induction cooker with 6 zones

Manufacturer: Locher Großküchen-Geräte GmbH

Model: 207206

Description:

Powerful complete induction cooker module with six zones – free standing version with open lower compartment.

Module completely made of stainless steel with flush mounted ceramic glass plate. Rounded angles and smooth surfaces enable easy cleaning of the unit. Inspection cover, back cover and lower division plate are removable. 4 adjustable feet that can be removed for installation on full or hollow pedestal. 20 mm backsplash on the backside.

Energy transmission through induction coils underneath the ceramic glass. The generator is positioned under the coil. In the case of maintenance, the connectors of the generator can be easily disconnected.

Utmost operational security thanks to:

- Electronic surveillance of the energy flow
- Empty pan detection (in the centre of the zone ; causes power reduction and automatic turnoff)
- Electronic temperature surveillance of the coil, the generator and the control PCB
- Indication of the residual heat on the cook zone

Each zone is operated through a potentiometer. Unit comes with power on/off main switch with signal lamp. A LED display under glass shows the selected power level (1-9) and eventual malfunctions. Each generator has two integrated fans, so air circulation is guaranteed. Unit comes with power cable, air duct and a dishwasher safe metallic air filter.

Optional:

- Preparation for energy optimisation
- Clamping bridge
- Hinged doors for lower compartment (left or right handed hinge)
- Professional scraper for ceramic glass (PCS/PCSB)
- Kit for ceramic glass care and cleaning (CPPS)

Technical data

Width:	1200 mm
Depth:	700 mm
Height:	850/900 mm (Height of lower compartment: 700 mm)
Glass dim.:	1150 x 605 x 6 mm
Coil dim.:	6 x round Ø 260 mm with 3,5 kW each
El. conn.:	400 V / 14,0 kW
