SIZE:							
Width: 800mm							
Depth: 560mm to splashback 475mm worktop depth							
Height: 850mm to worktop							
M.E.P REQUIREMENTS:				SPECIFICATION			
PLUMBING :				Bartender stainless steel modules are designed to create a versatile underbar system. The modules are simple to design and install and can be easily reconfigured. Bartender modules offer great flexibility for any size or shape of bar and special units can be made on request. Bartender worktops are 304 brushed stainless steel and feature a unique raised front profile or “bull-nose” to reduce the risk of drips and spillage of liquids onto the serving area. BZ09/080 is a 800mm wide bridging section with plain top which is designed to link 2 runs of Bartender modules at worktop height.
