Swing Door Merchandiser

Glass Door Merchandisers
Refrigerators

Model : TGM-5R-N6

≡ FEATURES & BENEFITS ≡

- **Hydrocarbon refrigerants (R-600a)**
With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).
- **Double pane glass doors with Low-E glass**
Energy saving double pane glass doors are equipped with Low- emissivity glass, which reduces outer heat gain and decreases energy consumption. It enhances energy efficiency and minimizes condensation. Lightweight door construction also reduces door maintenance and bushing wear, which in turn facilitates smoother door opening.
- **High-density polyurethane insulation**
The entire cabinet structure and solid doors are foamed-in-place using high density, HCFC free polyurethane insulation.
- **Adjustable, heavy duty, PE (polyethylene) coated wire shelves**
- **LED lighting interior**
- **Refrigerator holds 33°F ~ 38°F for the best in beverage preservation**
