 customized direction on-site

Short Form Specification

Item No. _____

Unit to be Electrolux dual rinse rack type dishwasher. Dual rinse with built-in WASH-SAFE CONTROL system and rinse booster pump guarantees constant rinse pressure. ZERO LIME device automatically de-scales the whole hydraulic circuit and all washing and rinsing chambers. Maximum Water Contact (MWC) wash arms are positioned along the full length of the wash tank. Included medium pre-wash zone works with cold water of maximum 40°C. Powerful wash pump and specially designed wash spray arms guarantee cleaning. Washing is done with water circulating at 55-65°C. Final rinsing is done with clean water heated up to 85°C. Dual rinse technology provides rinse water covering maximum the rinse area to ensure hygiene on washed wares. Low rinse water consumption of 0.9liters per rack at maximum speed of 200racks/hour. Three conveyor speeds are selectable by the operator with maximum capacity of 200racks/hour. Intuitive touch screen control panel provides easy communication on different levels. Large counter-balance door has heat and noise insulation with easy internal access. CLEAR BLUE filtering system removes majority of soil from the wash water to ensure clean water for long time. Built-in drain valve in the tank allows automatic dump and fill to refresh the water in the tank without interruption. Standard end of the day self cleaning cycle and sanitation cycle. Operating direction of the machine is decided by customer on-site depending on the layout flow with pre-arranged right to left from the factory.

Main Features

- Adjustable feet for full access underneath the machine for cleaning.
- IP25 protection against water jets, solid objects and small animals (larger than 6 mm).
- Built-in drain valve in the tanks allows automatic dump and fill to refresh the water in the tank without any interruption of the washing process.
- CLEAR BLUE filtering system removes soil from the wash water providing cleaner water and highly active detergent thus ensuring better washing performance and lower running costs.
- Pre-wash section uses cold water so food remains are not "baked" onto the plates in order to have better pre-wash performance.
- Auto-start/stop equipped in different zones ensures that the zone runs only when a rack is passing through it. This reduces water, energy, chemical consumption and noise.
- Intuitive touch screen control panel features user-friendly display to easily operate the machine and to monitor machine status. Three different levels of interaction are available each show relevant messages and information to the operator, the general maintenance staff and the authorized service partners.
- All internal components: wash and rinse arms, tank filters, curtains can be easily removed for cleaning.
- Unit equipped with USB port making it simple to read data such as machine identification, counters and consumption, components, devices and alarm logs. Machine parameters can be uploaded and downloaded and firmware updated.
- Large counter balanced inspection door allow unrestricted all-round access to the wash and rinse area. Door is insulated with injected foam. This adds strength as well as reduces noise and heat loss.
- Automatic drain, clean and sanitize cycles featured as standard. The internal chamber, is completely cleaned or sanitized avoiding bacteria proliferation for maximum hygiene and reducing manual work/time for operator.
- Self-draining vertical wash pumps provide maximum hygiene.
- Automatic back-up mode is activated when a failure occurs. Guided troubleshooting for fast fixes including 150 precise notifications and 23 easy-to-follow processes.
- Dual rinse technology ensures maximum rinse water covering every corner of the rack inside the rinse area for perfect hygiene on washed wares.
- Three conveyor speeds can be selected through the control panel by the operator and customized on-site.
- The unit is ready to be connected with OnE Connectivity for 24/7 real time monitoring, increasing equipment uptime, maximum profit and optimizing your process.
- Maximum capacity per hour of 200 racks easy to switch to DIN 10510 compliant or other speed.
- ZERO LIME Device as a fully automatic cycle ensures total scale removal from the boiler, the

APPROVAL: _____

hydraulic circuit, the washing chamber and the rinsing chamber allowing ultimate performances and lower energy consumption thanks to highly efficient heating elements.

- Built-in WASH-SAFE CONTROL system raises water temperature to 85°C to sanitize the rinse water. No external boiler is required. Built-in air break and rinse booster pump ensure constant temperature and pressure throughout the rinsing cycle regardless of the inlet water condition.
- Dual rinse with air break and rinse booster pump guarantees rinse water consumption of 0.9 liters/rack regardless of inlet water pressure to ensure low energy, water, detergent and rinse aid consumption.

- Set of 9 baskets: 2 for trays, 3 for plates, 2 for cutlery and 2 for cups PNC 867051
- Connectivity services hub (router) PNC 922697
- Connectivity services hub (router for sim card) PNC 922705

Construction

- Deep drawn pressed wash tank with fully rounded corners, sloped towards the drain to prevent dirt buildup, provides fast drainage in just a few minutes. With no welding points the pressed tank offers a guaranteed water tight solution.
- Modularity design allows the machine not only be disassembled for delivery and re-assembled at customer's site, but also to be customized and upgraded on-site and over time.
- Dishwasher structure is held together with a solid 50 x 50 mm stainless steel frame to provide long-term sturdiness.
- All electric components are put in one IP65 central box isolated from water and steam to ensure high reliability.
- External pre-arrangement for inlet water, drain water, detergent & rinse aid connections for fast and easy installation on both sides of the unit.
- All chambers without internal pipes and therefore no hidden dirt traps.
- All main components made in heavy duty anti-corrosive 304 type stainless steel: external front, side panels and internal chambers, wash and rinse arms, doors and rack transportation system.

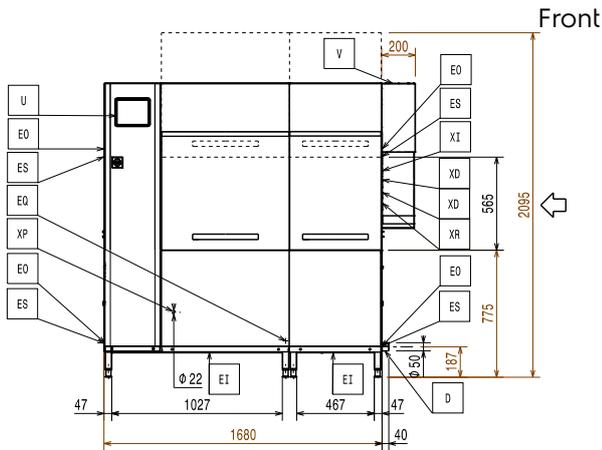

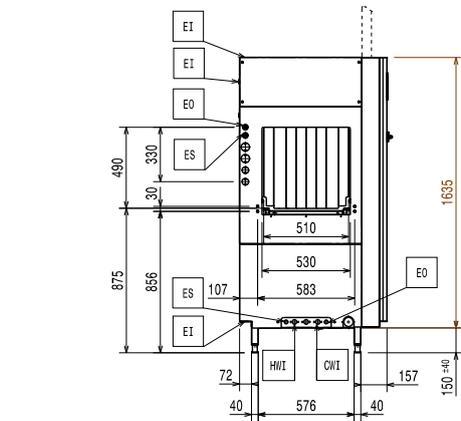

Optional Accessories

- Medium drying zone with door for green&clean Dual Rinse Rack Type Dishwasher PNC 535097
- Large drying zone with door for green&clean Dual Rinse Rack Type Dishwasher PNC 535098
- Corner drying zone for green&clean Dual Rinse Rack Type Dishwasher PNC 535099
- Medium hot air blower zone without door for Dual Rinse Rack Type Dishwasher, 50Hz & 60Hz PNC 535141
- Kit end limit switch for Rack Type dishwasher PNC 864138
- Connection bracket for plain undershelf and grid undershelf (to be used if roller conveyor is connected directly to Rack Type Dishwasher with splash hood) PNC 865235
- Kit water softener for Rack Type dishwasher PNC 865284
- HACCP cable connection for Rack Type dishwasher PNC 865490
- Kit water softener and reverse osmosis for Rack Type Dishwasher PNC 865494
- Splash hood kit for single and dual rinse Rack Type Dishwasher, 200 mm PNC 865498
- Silicon curtains for single and dual rinse Rack Type dishwasher PNC 865503
- Kit electronic connection for motorized table and remote pre wash module for Dual Rinse Rack Type Dishwasher PNC 865508
- Set of 6 baskets: 2 for trays, 2 for plates, 1 for cutlery and 1 for cups PNC 867050

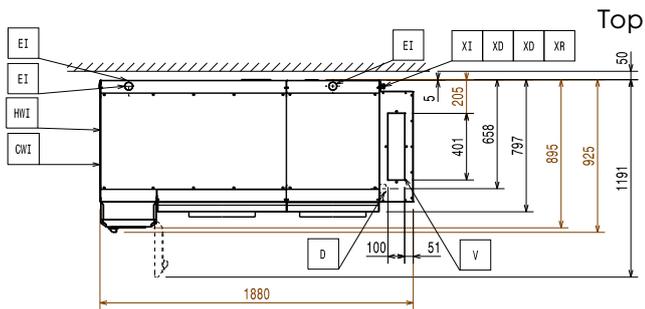

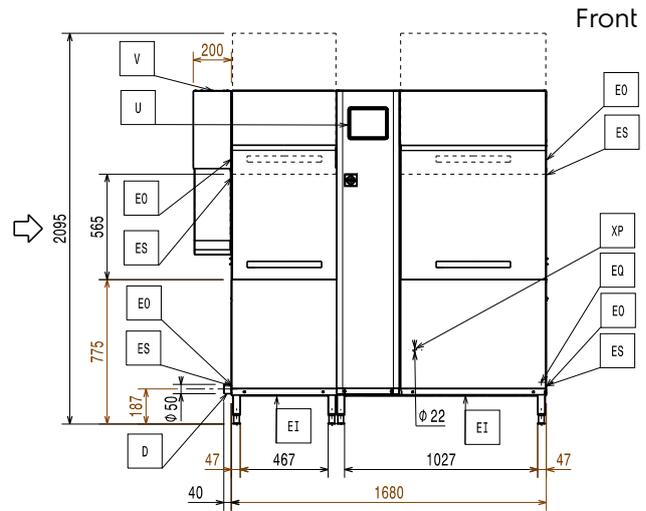

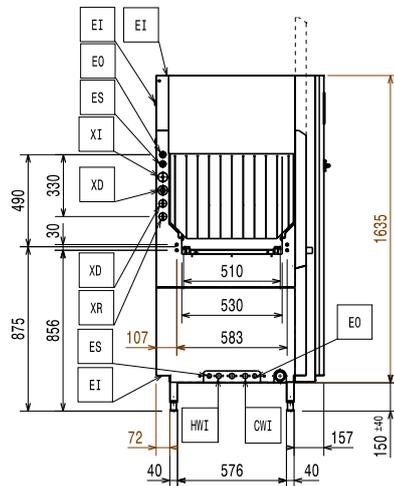

Components

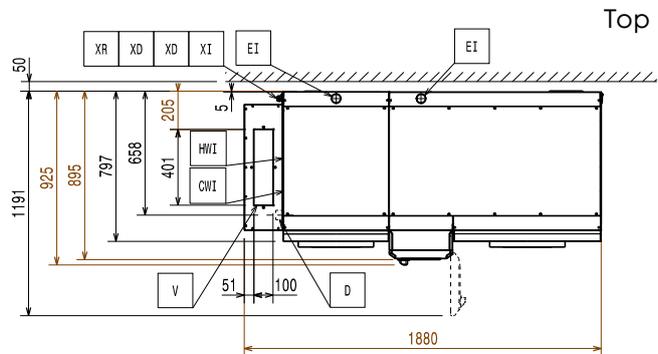

- 1 OF **535102** (EDR150ECA5W) Dual rinse rack type dishwasher, 150 racks/hour, ZERO LIME Device, CLEAR BLUE Filtering System, WASH-SAFE CONTROL, electric, touch screen, customized direction on-site
 - **Shipping weight:** 260 kg
 - **Shipping height:** 1951 mm
 - **Shipping width:** 1006 mm
 - **Shipping depth:** 1255 mm
 - **Shipping volume:** 2.46 m³
- 1 OF **535095** (NMPWDRE) Medium pre-wash zone for green&clean Dual Rinse Rack Type Dishwasher
 - **Shipping weight:** 126 kg
 - **Shipping height:** 2025 mm
 - **Shipping width:** 910 mm
 - **Shipping depth:** 695 mm
 - **Shipping volume:** 1.28 m³

Top

Electric
Supply voltage:

CC0FVY (CC0FVY) 380-415 V/3N ph/50 Hz

Default Installed Power: 22.7 kW

Electrical power min: 12.7 kW

When the machine is run at DIN 10510 compliant speed.

Pre-wash tank heating
elements: 7 kW

Pre-wash tank heating element are activated only during sanitation cycle.

Boiler heating elements: 10 kW

Pre-wash pump size: 0.37 kW

Wash pump size: 1.5kW

Wash tank heating elements: 10 kW

Water:
Inlet hot water line size: G 3/4"

Inlet cold water line size: G 3/4"

Drain line size: 50mm

Inlet water supply pressure: 1.5-6 bar

Inlet water supply temperature, pre-wash: 10-30°C

Inlet water supply temperature (wash and rinse): 50 - 65°C

Inlet water supply hardness: 14 °fH / 8°dH

When below 7°fH/4°dH special detergent and rinse aid are needed.

Peak rate of drain flow: 2.5 l/s

Pre-wash tank size: 35 l

Wash tank size: 70 l

Rinse water consumption at
max speed: 0.9 l/rack

Rinse water consumption: 180 l/h

Key Information:
Productivity per hour (max.
speed): 200 racks/3600dishes

Productivity per hour (medium
speed): 148 racks/2664 dishes

Productivity per hour (DIN
compliant speed): 95 racks/1710 dishes

Wash temperature: 55-65°C

Pre-wash temperature: 10-40°C

Wash temperature: 55 - 65 °C

Rinse temperature: 85 °C

External dimensions, Width: 1880 mm

External dimensions, Height: 1785 mm

External dimensions, Depth: 925 mm

For transportation purpose only, the depth can be reduced to either 895mm by removing the main switch button or 797mm by removing the control box and the door handle.

Height with door open: 2095 mm

Charging hole size (width): 530 mm

Charging hole size (height): 490 mm

Noise level: <62 dBA

Reference norm used to measure the noise: IEC60335-2-58 annex AA.

Table to table distance: 1680 mm

Air Emission:
Air flow (entrance, exit): 86 / 107 m³/h

Air temperature (entrance, exit): 27 °C

Air humidity (entrance, exit): 100 / 100 % r.h.

The data is measured at exhaust points at 25°C and 60% r.h. ambient conditions, 18°C inlet water temperature and refer only to the machine.

Latent heat: 5300 W

Sensible heat:

3400 W

This model requires a ventilation hood. Please refer to the attached "Recommended Exhaust Hood Design".
