Other	<ul style="list-style-type: none"> • The 12.1" high resolution screen, providing effective and attractive display of available specialties, is also video enabled, a useful feature to run advertisements and promotions. 	

Installed standard and optional features

Steam	Powersteam: Manual milk heating and foaming. Autosteam: Fully automatic milk heating and manual milk foaming (temperature can be programmed). Supersteam: Fully automatic milk heating and foaming (temperature and frothing can be programmed).
Guided User Interface (GUI)	Guest mode: For user-friendly guided selection of individualised beverages. Frequent user mode: For regular users who know their favourite beverage or want to adjust it to their liking. Staff mode: For efficient preparation in just a few steps thanks to pre-set beverages.
Additional features	Second and third boiler for simultaneous dispensing of hot water and coffee thanks to third boiler.

BestFoam™ (optional)

The patented Best Foam™ technology from Schaerer has revolutionised machine coffee preparation and promises barista-level quality. Hot or cold, smooth or creamy and firm: You can create milk specialities your guests will love.

Hot&Cold (optional)

Coffee brewed hot or served cold? Both are possible thanks to the special Hot & Cold feature. It makes it possible to serve tasty and flavourful cold beverages at any time.

Powder (optional)

Containers for chocolate and milk powder as well as other powder beverages (instead of 3rd grinder) are available in two versions: Individual container for one powder or Twin Topping container with partition for two different powders.

Choose your colour (standard)

Match your Schaerer Coffee Soul to your location and style. Available standard colours: Copper glossy, Red silky gloss, Black glossy, Brown silky glossy and Green silky gloss. Further colours on request.

Twin Milk (optional)

Expand your product range by offering two different types of milk, for example whole milk and skim milk (2 x 4.5 l milk containers in the cooling unit).

Additional coffee blends (optional)

Offer a choice of coffee blend varieties: install up to three 1200 g bean hoppers (instead of powder), and three corresponding high-precision, slow running grinders. You can choose to have specially cut grinding discs for greater espresso variety.

Schaerer Coffee Link: your digital intelligence

Schaerer Coffee Link is a digital service platform providing a powerful, real-time tool for the monitoring and the optimisation of your coffee operation.
